

E-content: This is a mind map explaining the difference between bar graph and histogram.

E-content type: Image

What does it explain?

This mind map explains the differences between a bar graph and a histogram.

How this e-content can be used?

This e-content can be used to explain the differences between a bar graph and a histogram to the learners. This can be helpful for a teacher to explain the differences between the two by showing the diagrams simultaneously to give a better understanding of them by explaining about the differences, side-by-side showing them on the diagrams given.
