

2. Meta data of E- Content (Pre production)

S. N.	AREA OF META DATA	TO BE FILLED BY CONTENT GENERATOR(S)
1	Topic	Sericulture
2	Subject	Geography
3	Topic connected which area of subject?	Agriculture
4	Class/ Level	VIII
5	Objectives	To understand about sericulture
6	Summary	Sericulture is the rearing of silk worms for the production of silk. Silk yarns come from the cocoon of the silkworms. The caterpillar hatches from a very small egg and is fed on mulberry leaves. It is an important cottage industry in China, India, Brazil, France, Italy, Japan, Korea and Russia.
7	Key Words	Agriculture, sericulture, silk worms, silk thread
8	Team of content persons	Dr. P. K. Malik
