

Meta data of E- Content (Pre production)

S. N.	AREA OF META DATA	TO BE FILLED BY CONTENT GENERATOR(S)
1	Topic	Flora and Fauna
2	Subject	Geography
3	Topic connected which area of subject?	The Cold Desert - Ladakh
4	Class/ Level	VII
5	Objectives	To learn about Tibetan antelope commonly known as Chiru
6	Summary	Tibetan antelope commonly known as Chiru are found in Tibet, China and in Ladakh. They have become endangered due to poaching. They are hunted for their soft and warm wool which is usually obtained after killing them. This wool is known as <i>shahtoosh</i> and is used to weave shawls. Trade in their products is strictly prohibited.
7	Key Words	Chiru, Tibetan antelope, endangered animal
8	Team of content persons	Dr. P.K.Malik
9	Subject Coordinator	Dr Tannu Malik
10	CIET Coordinator	

Chiru : a Tibetan Antelope
