

3.Meta data of E- Content (Pre production)

S. N.	AREA OF META DATA	TO BE FILLED BY CONTENT GENERATOR(S)
1	Topic	Major Domains of the Earth
2	Subject	Geography
3	Topic connected which area of subject?	World: Continents and Oceans, map work
4	Class/ Level	VI
5	Objectives	Know about the location of continents on the world map
6	Summary	There are seven major continents in the world namely Asia, Europe, Africa, North America, South America, Australia and Antarctica. The five major oceans are the Pacific Ocean, the Atlantic Ocean, the Indian Ocean, the Southern Ocean and the Arctic Ocean. Learning the location of these continents and oceans on the world map help learners to understand various topics in social sciences in a better manner.
7	Key Words	Continent, Ocean, Asia, Africa, Europe, North America, South America, Australia, Arctic ocean, Pacific ocean, Indian ocean, Atlantic ocean, Southern ocean
8	Team of content persons	Tannu Malik
9	Subject Coordinator	Tannu Malik
10	CIET Coordinator	

Activity: Mark the appropriate location of given continents, country and oceans in the given map of the world by dragging them to their respective location.

Note: *Child will drag the names from the given box and fit them on the map. Hence, CIETs help is needed to make it interactive.*

Australia, Atlantic ocean, Africa, South America, Pacific ocean, Asia, Indian ocean, Europe, Antarctica, North America, Arctic ocean, Southern ocean
--

CONTINENTS

Note: Water marks to be removed from the map by CIET or another world map may be used which shows all the continents.
